| <b>Maximum Marks</b> | 1 Mark                          |

### Team Involvement in Demonstration:

This document records the active participation and roles of each team member during the project demonstration. It ensures that every member contributes meaningfully to the presentation and that responsibilities are distributed fairly and clearly.

| S.No | Team Member Name           | Role in Demo                     | Section Presented         | Contribution Summary                                                                                           | Participation (Active / Passive) |
|------|----------------------------|----------------------------------|---------------------------|----------------------------------------------------------------------------------------------------------------|----------------------------------|
| 1    | <b>Shaik Ghous Unnissa</b> | Full-Stack Developer / Presenter | All Sections (End-to-End) | Designed UI, compiled vector matrices, built Flask endpoints, trained models, and led entire live system test. | <b>Active</b>                    |
| 2    | -                          | -                                | -                         | Individual Project Implementation Structure.                                                                   | -                                |
| 3    | -                          | -                                | -                         | Individual Project Implementation Structure.                                                                   | -                                |
| 4    | -                          | -                                | -                         | Individual Project Implementation Structure.                                                                   | -                                |
| 5    | -                          | -                                | -                         | Individual Project Implementation Structure.                                                                   | -                                |
| 6    | -                          | -                                | -                         | Individual Project Implementation Structure.                                                                   | -                                |

### Team Coordination Notes:

| Aspect                                        | Details                    |
|-----------------------------------------------|----------------------------|
| <b>Team Leader / Coordinator</b>              | <b>Shaik Ghous unnissa</b> |
| <b>Overall Team Coordination Rating (1-5)</b> | not applicable             |
| <b>Any issues during demo</b>                 |                            |

| Aspect                   | Details                                                                                                                                                    |
|--------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                          | None. Real-time request routing and array processing calculations performed successfully without thread timeouts or port blockages.                        |
| How issues were resolved | Pre-demo diagnostic scripts were run locally to ensure fraud_model.pkl loaded smoothly into active memory cache pools before the evaluation session began. |
